THE OF THE PROPERTY OF THE PRO

THE WEEK ON THE EXCHANGE.

Movement in Stocks.

Uncle Sam and Carisa Advancing-Star Con. Climbs-Tesora Active -Ajax Firm.

Today's sales on the Mining Exchange amounted to 40,055 shares which represented a selling value of \$29,296.82. The week's business amounted to \$253,453.45, which represented the sale of 328,385 shares of stock.

The week closes with a much better tone. Prices are apparently on the upgrade after the slump of the past two or three weeks. A very pronounced tendency toward recovery was seen today. Nearly all the active stocks showed more strength. Ajax, which sold as low as 79 on Monday, advanced to \$6 today, while Carisa was strong at \$1.19%. A very substantial gain is noticed in May Day which hung around 99 on Monday. Sales were made as high as \$1.08 on the exchange this morning. On the curb the stock afterwards advanced to \$1.15 owing to rumors about the mill's success. Uncle Sam was traded in at \$1.67% after selling down to 931/2 during the week. Daly-West opened at \$32.00 and closed at \$32.15, an advance of \$7.15 a share since Monday. Star Consultdated reacted today to 38% as compared to 32 earlier in day to 35½, as compared to 22 earlier in the week. Ben Butler moved up to 16%, while Tetro weakened to 25½. West Morning Glory is stronger aince the assessment was paid. Sales were reported this morning at 6½. Victor hung around 55½, while Emerald released 1,000 at 11½. Joe Bowers was active at 6. Tesora dropped 2,700 this morning at 52. Sunbeam was traded in at 36. Martha Washington weakin at 36. Martha Washington weak-ened to 21/2. Manhattan sold at 11/2. Closing quotations were posted as fol-

RICH ORE FROM BEAVER COUNTY.

Closes With a Strong Upward Another Lot of \$100-Ore From the O. K. Group.

SPURT IN MAY DAY TODAY. OF INTEREST TO LOCATORS.

New Schedule of Deposits Required-Will Sink Oil Well at Green River -Nonsuit Granted.

The Majestic Copper Mining company has another lot of high grade ore at the sampler from the O. K. group in Beaver county. Quite recently, it will be remembered, the company marketed ten cars of ore, which netted nearly \$27,000. The ore carried 40 per cent copper in addition to gold and silver values. The present shipment is similar in grade and the four cars will net the company about \$10,500, or about \$100

per ton. In speaking of the mine today, Manager Lewis said its condition is improving very much. The shaft is down 400 feet and as soon as a station is cut the management will drift about 40 feet to the big vein, which is opening up so magnificently on the 300 level. On this level a crosscut has cut the vein considerably over 100 feet and the second wall has not been found. All of this mass is said to be good smelting ore carrying between 5 and 10 per cent copper. In this body of low grade ore occurs the high grade chutes from which the ore is taken which is now at the sampler. The high grade ore which is affording the sinews of development, is opening out splendidly of late. A sensational discovery was made a few days ago, of which Mr. Lewis is waiting for more paragulars. When waiting for more par ulars. When of copper ore was in sight in one of the drifts on the 300 level, which as sayed between 50 and 60 per cent. The latest report states that the face is much wider and the values are still

OF INTEREST TO LOCATORS. Schedule Surveying Rates Issued

From Land Office. Under instructions from the Commissioner of the general land office, a new schedule of deposits required in connection with official surveys of mining claims in the office of U. S. surveyor general for Utah, will take effect, commencing with Monday, November 11, as

braced in one survey........ 45.00 For upwards of three locations embraced in one survey for the

for each lode claim within and included in the survey of a plac-of improvements, after approval

of survey

Should an amended order issue, an additional deposit will be required. It will be observed, that the new schedule of rates makes several changes, viz: an increase of \$10 per location for a single location, or for three loca-tions embraced in one group survey. If upwards of three locations, \$30 only is charged for the first location and \$20 for each additional location. Under the old system in vogue \$20 for each location was charged. It will also be ob-served that the \$5 heretofore charged for each conflict has been dropped, which in the majority of cases will re-suit favorably to the claimants. The new schedule of rates is made up

to conform as nearly as may be to the rates adopted in an other offices of U. S. surveyor general in the United States, and is less than in some other

WILL SINK AT GREEN RIVER.

The California-Utah Oil Co. Will Pu Down Its First Well at That Point.

Price, Utah, Nov. 2.-The California and Utah Oil company has decided to put down its first hole nine miles south of Green River town on the west side of the Green river, on what is known as the Blue Ridge. The machinery was ordered from California some time ago and is now on its way from Ogden, having been sidetracked there until the company's experts, who have been on the ground, with several leading men of the company since last Thursday, decided upon the place where the first well was to be located. The contract was made at Green River yesterday for hauling the machinery and a carload of casting. The rig is a standard and can be made to drill 4, 500 feet in depth. These parties are the gentlemen who have been at Salt Lake City for ten days. They went to Green River the first of the week. They are largely interested at Bokersfield, Calif., also.

Directors C. M. Kilburn, W. J. Berry and Walter Scott returned to the city last evening after deciding the point at which the well will be put down. Manager Don C. Robbins of the company. came to the city this morning and after attending to some business, he expects to leave for camp tonight to superintend the hauling of \$5 tons of material to the well site. The machinery is now at Green River.

DALY-JUDGE COMPANY.

Starts Out to Make a Mine With \$150,000 in Cash.

Cashier J. W. Donnellan of the Commercial National Bank, received a telegram yesterday afternoys from John J. Daly, who is in New York, stating that the Daly-Judge Mining company has been organized under the laws of New Jersey with a capitalization of \$150,000 shares. The following names

John J. Daly, Allen Fowler and O. J.
Salisbury of Salt Lake City, H. Otto
Hanke of Cincinnati, Albert C. Wall of New Jersey and E. Hollingsworth Wood of New York were selected as directors. The officers are: J. J. Daly, president; Mr. Salisbury, vice president; Dr. Fowler, treasurer, and George W. Lambaurne, secretary.

bourne, secretary. The new company owns all of the Crete, Nile, Oriental, Sultana, Sultan, Southwest Bonanza and Jones Bonan-Crete, Nile, Oriental, Sultana, Sultan, Southwest Bonanza and Jones Bonanza and Jones Bonanza at that are patented; all of the Ophir, of Provo, to Percy S. Sowers and the

Albert N., Water Witch, New Year Deertrail, Moxun and Tryangle, not patented; a half interest in the State of Maine, Iron Clad, Iron Clad No. 2. Mary Ellen, Little Nell, Judge and Quinn No. 3, patented; a third interest in the Old Armchair Nip and Tuck, Enterprise, Knickerbocker and Occiden-

15 TO 35

Mr. Daly has been working on the scheme for many months. The new company starts out with \$150,000 m the treasury, the result of the sale of 50,000 shares of treasury stock. In discussing the proposition previous to his depar-ture for the East, Mr. Daly said he considered that sum ample to equip and develop the property. It will be nec-essary to sink about 1,000 feet to catch the ore chutes which are known to enter the group from the Anchor.

NEW COPPER RATES.

Regular Calls of Metal Exchange Shall be in Standard Copper.

New York, Nov. 2 .- A draft of the proposed new copper rates of the metal exchange has been submitted to members. It provides that the regular call or calls, shall be in standard copper, but any other grade of copper shall con-sist either of domestic or foreign and shall be of 96 per cept fine copper or over. For each full one per cent above 96 per cent fine copper one per cent may be added to the amount of invoice when Copper festing below 96 per cent fine shall not constitute a good delivery, according to the new rules.

Nonsuit Granted.

The damage suit of Frank Harriman against the Tintic Iron company, of which Mr. Thomas Weir was manager, yas yesterday decided at Nephi by the court granting a nonsuit.

The case grew out of an accident which occurred in the Dragon shaft by which Mr. Pulver was killed. Two missed shots went off and Mr. Harriman alleged that the company showed negligence. In the suit the court held that this was not proved, hence the above decision.

Samples From Gold Queen.

Provo, Nov. 2.-Brig Darger, the veteran prospector and miner, is up from Gold Mountain with a fine lot of same ples from the Golden Queen mine, in which Mr. Albert Singleton, of this city, s interested. Mr. Darger has drifted about fifty feet along the vein and at the end of the drift has sunk a shalt to the depth of about twelve feet. He finds the vein widening and has a width of three feet at the bottom the shaft. The vein is composed of fine looking gold quartz from which he has panned gold. The samples he has brought with him look most promising and they are now in the hands of the assayer.

Harrington-Hickory Shipment.

A shipment of two cars of ore reached the sampler today from the Harrington-Hickey group in Beaver county. The shipment consists principally of silver-lead ore, but part of the consignment is made up of copper ore tak-en from a new discovery in the mine. The property is being operated by the wealthy capitalists developing the O. K. The Harrington is located six miles southwest from the O. K. Its manager says it will be a second Horn Silver. Some very good ore is being encountered, the assays showing as high as 400 ounces silver per ton. The property is being developed by a shaft now down 400 feet.

Shor: Line Excursion.

The Oregon Short Line announces an excursion to the mines of Tintic tomorrow which will be taken advantage of by a great many people. It was reported today that entrance would be allow-ed the May Day mill, but Director James Larson, who returned from the mine today, stated that he did not think the mill will be ready for inspection. It was rumored today that the mill was a decided success and that 70 tons of ore was handled yesterday. Mr. Lar-son sald it was not a fact as the owners are still adjusting the parts of the plant. About a carload of concentrates only has been turned out.

Pleased With the Maxwell.

Col. E. A. Wall returned to town last evening from an inspection of the Maxwell group at Bingham, which is being developed by means of a tunnel. The colonel has just put in 1,800 feet of air line and he is operating a Leyner drill in the drift which is being run both ways on the big vein. This vein is over 100 feet wide, having been crossed by the tunnel, which is about 700 feet long. A couple of men are engaged in driving both ways on the vein. By working alternately in both drifts they are able to make 8 feet per day. The colonel says the Leyner drill uses less air than other drills but does very effective work. A big body of low grade ore has been cut by the crosscut which is expected to shortly disclose a chute of higher grade ore.

Gold Mountain Notes.

In a review of the mines of Gold Mountain, the Richfield Reaper says: The June Bug continues to keep up appearances and is turning out some ood ore. The B. W. and H. Mining company

shipped a carload of 419 sacks of ore to northern smelters Monday.

Joseph H. Erickson returned from a trip to the Golden Reef mine Monday. He reports 10 tons of shipping and 20 tons of low grade now out.

A force of men are now at work on

the Utica group of claims on Gold Mountain. W. F. Snyder and others own the group and Greely Snyder is superintending the work. A miner from Marysvale informs us that a deal is on by which the We 19

nex; few days and be passed from the ownership of Mrs. Martha Lyon to Jewett and McCpllough of Gunnison, D. S. McCurdy was up at Gold Mountain last week and while there he went to see the Trapper's Pride mine. He reports that the vein that was found in the tunnel some three weeks

ago, has been followed on an incline from the top to below the tunnel level and is now eight feet wide and is very H. W. Ramlose became sole owner of the Lora Tree group of mining claims on Gold Mountain first of the week having purchased the interest of Mayor L. H. Outzen. The Lone Tree group consists of seven claims and joins the Sevier and Miller groups.

Mr. Ramlose let a contract to Will Garr and Oliver Jensen, a few days since to run another 150 feet on the Forty workmen have been obtained here and sent to Gold Mountain, where they will construct a new canal and flume for the Annie Laurie company, to operate another electrical power-house. The new plant will be located about one The new plant will be located about one and one-half miles below the present power plant and will take the water of Fish creek just beow its wheel and carry it around the side of the canyon

ill sufficient drop is reached to run Mining Deed Recorded.

Castilla Resort and Improvement coin-oany, has been filed with the county recorder. The deed conveys the War Eagle "A" and War Eagle "B" mining claims in American Fork mining dis-trict, one-third to Percy S. Sowers and two-thirds to the Castilla Resort and

mprovement company; consideration, Notices of location of the following mining claims, situated in American Fork mining district, near the Silver Star mine, have been filed with the county recorder by J. H. Mercer et al: extension of Silver Star mine, Big Pine and Big Pine Nos. 2 and 3.

MINING NOTES.

The Phoenix of Bingham marketed a car of ore today.

The south Swansea had a car of ore on the market today.

Two cars of ore were marketed today from the Carisa of Tintic. The Ben Butler of Bingham had four

cars of crude ore on the market today The Northern Light assessment of 2 cents a share became delinquent today. Manager Charles I, Rader of the Annie Lauria of Gold Mountain returned to the city today.

Judge Bartch has severed his con-nection with the Martha Washington

The Taylor-Brunton sampler reported four cars of ore from Frisco, six from Bingham and three from Bingham today.

Dr. C. J. Peterson is quite elated over a big strike in his mine on Gold Mountain where he has an eight-foot yein from which ore to the value of \$600 a ton has been taken, the vein also averages 12 ounces of silver.

BUSINESS NOTES.

A large amount of money has changed hands in local commercial stock transactions during the week past. A big block of Co-op. Wagon sold at figures close to \$117, and a small block of Deseret Savings bank brought \$189, the highest figure in the history of that stock. Rumor has it that the steady advance is due to the expectation of an increase in the dividend on January 1.

The largest transactions of the week have been in Utah Sugar, which has veered between \$14.40 and \$14.65. A considerable amount of stock came on the market early in the week, but as soon as it was known that Mr. Cutler, manager of the company, was doing some heavy buying, a number of sellers suddenly withdrew their offers. Brokers Burton and Cutler say today that the

inquiry for the stock is quite active.

Operations at the Utah Sugar factor; continued on an unprecedented scale, and the 9,000,000 pound mark will be passed on Monday. Ogden Sugar has not wavered, though the output there will not be as heavy as expected. The firmness of the stock is due to the fact that it is very closely held, Mr. David Eccles and his associates owning the great bulk of it. The Utah Sugar stock, on the other hand, is widely scattered, which is always an element of weakness in a limited market like price of sugar remains steady, and is quoted by Z. C. M. I. at \$5.15 wholesale, and \$5.30 retail, for the beet product. The latest quotations are as follows:

Lehi Com. & Savings Bank ... 100.00 Thatcher Bros. B'k'g Co., Logan 111.00 First National Bank, Ogden ... 202.00 Rocky M't'n Bell Tel. Co. (issued) 100.00 Davis County Bank, Farmington 100.00 Barnes Banking Co., Kaysville.. 200.00 Ogden Savings Bank 100.00 BONDS.

Church Bonds 104 1/4 Salt Lake City Railroad Bonds (taken up in 1903) 103 34

Mr. W. T. Rowe, who has been con-nected with the Siegel Clothing company in this city for the past nine-teen years, and Mr. E. W. Kelly from Fillmore, Utah, who was a member of the last state legislature, have purchased the entire stock of the S. P. Teasdel company on Main street, and intend to make the necessary alterations in the store and stock to make of the institution a strictly up-to-date enterprise. They will assume Monday morning. They will assume control on

The contractors who are erecting the new Elk's club-house are pushing the building to completion with all possible speed and already have the walls up to the first floor. The building will be very handsome when finished.

The old Shurtliff farm of eighty acres south of the Husler mill on State street, which has been owned by a syndicate composed of Judge Bartch and others, shortly be the property of Judge tch. The deal is now practically closed whereby he will become owner for a consideration of \$12,000.

Salt Lake bank clearings for the week an increase of 56.17 over the clearings for the week an increase of 56.17 over the clearings for the corresponding week of last year. Detroit with 58.3, Youngstown with 85.9, and Sloux Falls with 65.5 are the only cities, according to Bradstreet's report which show greater percentages of increase than Salt Lake. Seattle clearings increased 52.2 per cent and Denver showed a decrease of 5.6 per cent. San Francisco clearings increased 17,7 per cent, New York, 27.4, and Chicago, 29.8.

Mr. W. R. Servis of this city has again resumed business and is opera-ing a wholesale candy factory on West Second South street.

William H. Cramer, the wealthy Mon-William H. Cramer, the wealthy Montana cattleman, is the latest man of wealth to come to Salt Lake for a home. He has purchased from W. J. Halloran and J. C. Lynch a 3x10 rods lot fronting south between Seventh and Eighth East on east Second South street, and intends to erect a \$10,000 residence thereon. The price paid for the ground was \$2,700. Mr. Cramer will make Salt Lake his permanent home and intends moving his family to this city at once. family to this city at once.

Great Dress Goods Sale-Cohn's

BUSINESS STILL EXPANDING.

There is a Lack of Transportation Facilities.

THE EXPORTATION OF COAL

It is Becoming an Important Item-Steel Mills Many Mouths Behind in Orders.

New York, Nov. 1 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "Although the latest railway returns indicate that transporting facilities have greatly improved, the nation's business has expanded more rapidly. Car shortage has, in fact, become the chief retarding influence. From all sections of the country and many lines of industry complaints are heard regarding the inability to move goods. Probably this has been most aggravating in the case of coal, unseasonably high temperature alone preventing serious inconvenience. Not only are domestic requirements enormous, but coal is becoming an important article of export, partly owing to labor controversies in France and G. at Britain and also to the British export tax. "Mild weather affects retail distribu-tion to a very marked degree, orders for heavy-weight goods being canceled in some cases where manufacturers were behind with deliveries.

"That the volume of legitimate busi-ness is not being curtailed is evidenced by the increase of bank exchanges in New York of 27.4 per cent over last year and 7.22 per cent over the same period in 1899. In ten other leading cities the increase is strikingly large "Not only are steel mills many months behind orders and prompt deliveries commanding premiums, but even where goods are ready for customers it is often impossible to ship, because of in-adequate railway facilities. Structural material is urgently sought, and mild weather prolongs the season for buying pipe. Steel rail orders increase and the fancy prices asked for billets have brought imports from Germany, where industrial depression makes it impossi-ble to sell at very low figures. Domestic quotations do not alter, although list figures are not considered on deliveries before the year's end. Copper is ar-tificially sustained by closing mines. "Foot wear manufacturers have made

a general advance in prices, restoring the figures of early spring. It is obvious that the average rise of 2½c does not cover the enhanced cost of material, yet new orders have been extremely light since the change, as jobbers are resisting the natural tendency. Textile markets are well sustained.

"Woolen mills have ample orders and take large quantities of raw material,

holding wool prices firm. "Irregularity prevailed in the mardistinct decline from the unusually high position recently attained by pork products, while at the same time corn made a further advance. came to market freely, arrivals at western cities amounting to 7,060,590 bushels. Atlantic exports were less satisfactory than last week, but including all United States ports the week's shipments were 5,018,103 bushels. against 3,685,821 last year and 3,508,998 in 1899."

BANK STATEMENT.

New York, Nov. 2.—The statement of the associated banks for the week ending today, shows:

Loans \$892,992,800 Increase Circulation 21,875,600

MARKET STARTED STRONG

Pennsylvania's Dividend Gave a Stimulus to Stocks at the Opening.

B. & O. and Union Pacific Largely Hought-Close Was Strong With a Rush of Buying Orders.

(Special by leased wire to Burbidge, Copps & Co.)

New York, Nov. 2 .- London, irregular. The market started very strong and firm under the stimulus of the dividend of Pennsylvania and the oft repeated report that Northern Pacific settlement would be announced. We can only repeat that we hear from the best authorities that this matter has been settled some time and will be announced to the public when the people having charge see fit. Our opinion is the same on the market, namely builish. We advise buying Canadian Pacific, Union Pacific and B & O. We understand Erie first is in for good advance. Large interests are buying calls on it in Lon-don, thus showing that they expect a

The bank statement was worse than The bank statement was worse than expected but it induced no selling and the market has been an agreeable surprise to bulls. Ne week being broken by election will, we think, be dull and without important changes. The entire defeat of Tammany should create a better feeling but the great obstacle in the way of the bulls is the Northern Pacific muddle. The close was strong with a rush to buy at the close, giving rise to suspicion that there was some

rise to suspicion that there was some good news coming out.

(Associated Press.)

New York, Nov. 2.—Opening prices of stocks moved both ways within narrow limits, but prices were inclined to go after the opening.

The heaviness of the market was

The heaviness of the market was shortly changed, as there was a large accumulation of Southern railway issues and effective bidding up of the Vanderbilts, which turned the general market upwards. Baltimore & Ohio, Union Pacific and Manhattan were so largely bought. The market became dull and sluggish and then sold off on the bank statement. Amalgamated lost

a point. Supporting orders met the de-cline, Southern, Union Pacific, Southern railway preferred, U. S. Steel preferred.
